

## Keeping Information Secure

Train employees on keeping business information secure and keeping your business protected from information security breaches

### Course Overview

This course is set in our engaging format and split into two modules of gamified scenarios.

It is designed to enable learners to understand key elements of data protection and keeping business information secure.

The course will also demonstrate to employees how to identify information security risks and minimise them accordingly. Learners are immersed in realistic scenarios which could occur in any organisation, anywhere in the world. The learner is tasked with discovering the source of a breach of information security.

### Key Learning Points

- How to identify and minimise information security risks
- What to do to ensure that systems are protected
- Remain secure when out of the office or working externally
- How to handle sensitive documents
- Causes of data breaches
- Individual responsibilities and legal requirements
- How to assess physical security risks
