

Risks to Digital Information - Toolbox Talk

Toolbox Talk exploring the risks to digital business information

Course Overview

Our Risks to Digital Information Toolbox Talk is a multimedia facilitation resource for training a small group or team on the basics of risks to digital information.

The format of this course is designed to encourage discussion and raise awareness on mitigating the risks and protecting information at work.

Take this course to recognise the risks associated with digital information and understanding the significance of securely connecting to a network at work, saving files and transferring data and recognise the risks to data security.

Key Learning Points

- Connecting securely to a network while remote working
- Risks of connecting work devices to an unsecured network
- Secure transfer of files to the network
- Sharing sensitive documents and files securely
- Secure ways of sharing sensitive information
