

Asbestos Management Course

Our online Asbestos Management course explores mitigating the risk of asbestos exposure.

Course Overview

Asbestos exposure can lead to serious health issues. Knowing how to manage this material is crucial.

Our Asbestos Management course is designed to teach employees at risk how to safely identify asbestos and what to do if they suspect asbestos is present, including a look at the key pieces of asbestos legislation.

Additionally, the course offers employees an overview of asbestos related legislation and why this was put in place.

Key Learning Points

- Where asbestos is likely to be found
- How to manage asbestos when it is found
- What is required when carrying out maintenance or demolition work
- What to do if materials containing asbestos are damaged
- What legislation exists surrounding asbestos and how to follow the law correctly
