

DSE Working with Dual Screens

Working with two or more screens? Make sure your workstation is set up safely

Course Overview

Many work tasks require the use of more than one monitor attached to the same computer at the same time. It can make comparing two sets of data simpler and helps productivity. From design work to spreadsheet analysis, dual screens can make work life easier for many tasks.

Working with dual screens can also increase the risk of DSE-related health problems. Our Working with Dual Screens short course teaches learners how to set up dual screens correctly, making visual and musculoskeletal complications less likely.

Key Learning Points

- The benefits of working with dual screens
- The health issues associated with dual screen work
- How to align equipment to reduce eye and neck strain
- What to do if the screens are different sizes
- What to do if one of the screens is a laptop
