

## Advanced Legionella

Our Advanced Legionella course provides a clear understanding of the science behind legionella and how dutyholders need to tackle it

### **Course Overview**

Exposure to Legionella can cause serious health issues. In many cases, it proves fatal. Water safety is a vital component of health and safety procedures.

Our Advanced Legionella course takes an in-depth look at what Legionella is and the risks associated with it. It covers who is at high risk, the importance of completing a risk assessment and what control measures can be used to mitigate the risks.

It provides a companion course to our Legionella and Water Safety eLearning course.

# **Key Learning Points**

- The risks and different strains of legionella
- How and why to risk assess potential legionella sites
- Legionella legislation such as ACoP L8 and HSG274
- The role of dutyholders and the responsible person
- Identifying the routes of infection and higher risk people
- The importance of flushing water systems
