

Environmental Awareness (Global)

Our global Environmental Awareness course helps international businesses understand how their activities impact the environment and how to improve sustainability

Course Overview

All organisations need to consider their impact on the environment. With environmental issues more prominent than ever before, there has never been a more important time for businesses to consider their sustainability, energy efficiency and carbon footprints.

Our Environmental Awareness Global eLearning course is a practical guide for international businesses who want to improve their environmental impact and ensure they are compliant with worldwide environmental best practice. It empowers them to make environmentally sound choices about working practices.

Environmental Awareness is available in two versions: **UK** and global.

Key Learning Points

- Why environmental awareness within businesses is important
- Environmental protection techniques to consider
- How to calculate your business' environmental impact
- Energy efficiency and how to improve it
- Practical techniques for reducing your carbon footprint
- Understanding international best practice
