

## Medical Emergency

Would you know what to do if there was a medical emergency at work?

## Course Overview

In many public places, the risk of a sudden medical emergency is high. Knowing how to respond appropriately is vital.

In our scenario-based microlearning course, you arrive on the scene of an accident with two casualties, one of whom is unconscious. Make the right decisions to keep all of your "red crosses" and pass the course.

Our Medical Emergency eLearning short course teaches all employees how to respond in situations where every second counts.

## Key Learning Points

- How to react in the immediate aftermath of an emergency
- How to prioritise multiple casualties
- When to call for support from other employees
- What to do when the paramedics arrive
- How to record and investigate the incident afterwards
